Descriptives

Participants: 85

Mean Age (in Months): 60.5 (43 4-year-olds, 42 5-year-olds)

Gender: Males: 38 Females: 47

There are differences between ages groups and their performance on ToM tasks:

```
sjp.xtab(belief$ToMComposite, belief$Age, show.total = FALSE)
```

(8 is passing all ToM tasks, 0 is failing all TOM tasks)
